PROJECTS

Beauty Salon Website

January 2023-March 2023

- Developed a dynamic business website for a high-end beauty salon, providing visitors with a seamless experience to explore services, check availability, and conveniently book appointments online.
- Utilized modern design principles and responsiveness to deliver a visually appealing and accessible website.

Portfolio Website

April 2023- July 2023

- Designed and developed a personal portfolio website to showcase my front-end development skills and projects.
- Employed best practices in web development to ensure cross-browser compatibility and fast loading times.
